

**Supporting evidence-based migration policy**  
Collaboration of the Dialogue with the Mixed Migration Centre (MMC)

→ **3 Policy papers**

Based on thousands of surveys of refugees and migrants in Africa (MMC 4Mi project):

**The impact of COVID-19 on refugees and migrants on the move in North and West Africa (03/2021)**

- Examines the mobility restrictions put in place by West and North African countries and the socio-economic impact of COVID-19.
- Finds an effect on the needs, aspirations and capacities of refugees and migrants to move within and outside the two regions.

**Migration drivers and decision-making of West and Central Africans on the move in West and North Africa (06/2021)**

- Analyses a variety of factors and influences that come into play in the decision to migrate, while recognising the importance of economic considerations.
- Contributes to a holistic migrant-centred approach.

**Mixed migration in urban areas: experiences of migrants on the move to, within and from cities in West and North Africa (11/2021)**

- Explores the role of cities in migration trajectories through the examples of cities in West and North Africa.
- Provides an overview of the experiences of people on the move in cities, with a particular focus on youth and children.

→ **Mixed migration futures programme (scenario-building and interactive workshops)**

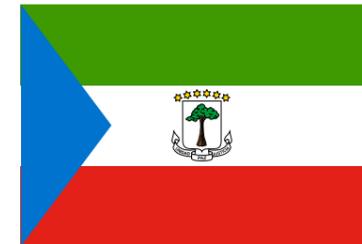

How to better anticipate future trends and plan appropriate responses? 2 out of 4 activities organised so far:

**The role of technology within migration dynamics | 16/06/21, virtual**

Identify and visualise technology-related migration factors (e.g., use of smartphones) and reflect on the future evolution of technology and its impact on migration

**Climate change and environmental factors: what impact on migration? | 27/10/21, virtual**

Key messages: migration factors are multiple and intertwined; environment is not a single factor; climate change acts as a multiplier of existing threats / vulnerabilities.
